Education

Anantrao Pawar College of Engineering & Research <i>Bachelor of Engineering in Information Technology</i>	2020 - 2026 Pune, India
Aggregate Score: 8.31	
AKI Poona College of Arts, Science & Commerce <i>Higher Secondary Certificate (HSC) - Science</i>	2020 - 2022 Pune, India
Percentage: 62.33%	
Pandharinath Mohite English Medium School <i>Secondary School Certificate (SSC)</i>	2020 Pune, India
Percentage: 84.60%	

Experience

SunAmps Energy Pvt Ltd <i>Intern - Full Stack Web Developer (virtual)</i>	2025
- Collaborated with team members to understand document technical specifications and user requirements to ensure project clarity. - Developed and maintained responsive web applications leveraging HTML and CSS to deliver user-friendly interfaces. - Applied best practices in front-end development to accessible and visually consistent web pages. - Gained hands-on experience in full lifecycle development, from requirement analysis.	

Projects

MediBrief-Lightweight Medical Report Summarization	FLAN-T5 Large
- Designed and implemented a system that uses OCR and a fine-tuned Flan T5 Large LLM to analyze and generate clear, easy to understand summaries of various medical reports. - Focused on improving patient health outcomes by making complex medical information accessible.	
E-state Management System	MySQL
- Designed and implemented a normalized relational database (using MySQL) to manage complex real estate operations, including property listings transactions, leases, and relationships. - Developed a comprehensive schema across 14 tables (including Universal Property, Saleproperty, Rent Property, Lease and Transaction) to manage a single source of truth for all property data while adhering to Third Normal Form (3NF) principles.	

Achievements

- Published a paper titled "MEDIBRIEF: A Scalable, Privacy-Preserving and Lightweight Medical Report Summarization".
- Presented at the 3rd International Multidisciplinary Conference on Research, Technology & Engineering (ImCreTE-2026).

Technical Skills

Languages: Python, MySQL, HTML, CSS

Developer Tools: Visual Studio Code, Microsoft Power BI

Technologies/Frameworks: FastAPI, Relational Database Design, SQL Query Optimization, Data Normalization (3NF)

Hobbies

Cricket, Gaming, Carrom, Experiencing New Things
